

Hot Air

Message from the President

October 2025

Apologies for missing a September Newsletter. I failed to hit send before I headed out of town which contained my input. I didn't realize my mistake until the middle of the month. By then, it didn't make sense to publish since the events contained were history.

I had included some photos from the August Planes of Fame flying demo in the input I failed to submit to Chris last month. So, I will include them this month. The museum had two visiting OV-10 Bronco's flying. These are from the Vietnam era and are impressive, to say the least. The T-6 and P-51 were giving rides to museum members that had reserved the flights.

My wife and I are taking a trip that will prevent me from being here to hold a meeting in October. John will also be out of town. So, our next meeting will be November. If you have anything regarding the club that you would like to discuss, don't hesitate to contact a club officer.

Next Meeting

No meeting in October

I have really been enjoying flying at Del Cerro since the parking has returned to free parking. The signage says you can make a reservation an hour in advance, but I've only been successful making a reservation a day in advance. I'm okay with that, since you can again avoid dragging planes and radios a long distance by parking in the lot. The view from the fence is always gorgeous. You can make reservations via the [website](#). Charge up a plane and head up the hill. We have one of the best glider flying sites on the West Coast.

The paperwork has been submitted to the City of Torrance to reserve the La Romeria Park meeting room for 2026. I will let you know when the application is approved.

The club has had a handful of new members join in the past couple of months. If you see a new face at either of the fields, introduce yourself and show them the field. It's great that there are new folks interested in flying at the club's fields. Help them learn how to safely fly there.

Upcoming Fun-Flys

Del Cerro	October 4th
Entradero	None

I don't have a lot of news regarding flying at Entradero Park. Fall baseball games and practices are underway on the weekends. The field is available weekday mornings. Please let a club officer know if you have an access issue.

You might want to check out the upcoming [Central Coast Airfest](#), October 18-19. This air show has been coordinated by the Planes of Fame Museum for the past couple of years. The Museum will have a lot of their flying collection at the air show. There will be a lot of additional World War II aircraft in attendance (10 P-51's will be flying, 3 P-47's, 2, P-38's, etc). Take a look at the full list of aircraft - it is impressive. There will also be USAF and USN demo teams in attendance and an RC demonstration group flying as well.

The [fall A.M.A. schedule](#) of sanctioned events reflects a hope for cooler weather ahead. There are a lot of varied RC events in October. Gliders, pattern, scale, float flying are all represented. If you attend any of these events, please consider sharing some photos and write up your impressions for the newsletter.

All the best,
Jeff

August Planes of Fame Demo
